Luis F. Lara, MD

**Saturday August 25, 2018
Biomedical Research Tower**

Room 115

460 W 12th Ave

Columbus, Ohio 43210

PROGRAM DESCRIPTION

We recognize that our practice requires a strong team which includes nurses, technicians and additional support staff. Endoscopic equipment and techniques are an evolving field. Updates are necessary to keep up with the growth of GI practice. The Ohio State University Wexner Medical Center has a strong GHN faculty with subspecialty training and interests who, through teaching and research, are at the forefront of gastroenterology and endoscopy. Education and training opportunities are limited and we feel that a course which covers usual clinical scenarios followed by hands-on sessions where nurses and ancillary staff have a chance to handle equipment fills a need for education that is unmet in the region.

OBJECTIVES

- Review common diseases of the gastrointestinal tract as they pertain to endoscopic procedures
- Discuss routine as well as advanced endoscopic techniques and tools
- Acquire a working knowledge of endoscopic tools during the hands-on sessions

ACCREDITATION

The Ohio State University Wexner Medical Center is an approved provider of continuing nursing education by the Ohio Nurses Association, an accredited approver by the American Nurses Credentialing Center's commission on accreditation, 6.5 credit course(OBN-001-91)(OH-057,2/1/2019).

EVENT LOCATION

Biomedical Research Tower BRT
Room 112
460 W 12th Ave
Columbus, Ohio 43210

Saturday, August 25th, 2018

7:30am

BREAKFAST/REGISTRATION

7:55am

Welcome and Introductions

Luis F. Lara, MD

8:00am

Endoscopic ultrasound fundamentals and applications

Sebastian Strobel, MD

8:20am

Complex polyp removal

Amy Hosmer, MD

8:40am

Endoscopic bariatrics
